

# THE PERFECT FAMILY LIFE THAT'S MAKING THE NEWS

SEE HOW HAPPY YOU COULD BE AT WHITEHORSE PARK, BANBURY

To enjoy an idyllic countryside lifestyle with all the modern amenities you and your family need on your doorstep, there really is nowhere better. Whitehorse Park boasts the best of modern living paired with rural beauty - and with only a few homes remaining our neighbours have plenty to shout about.

*When we visited the show home we were immediately impressed with the building quality and standard. The properties that Banner builds look sturdy, well-built homes, something that you can trust. But above all the thing that impressed us the most was the finish of the homes – it seemed that everything had been thought of, the little touches really do count. We are delighted with our home. The layout is perfect for our needs and I truly believe that this is our 'forever home', there just seems no need to move.*

*When we came across Banner Homes' Whitehorse Park development we immediately fell in love with its location and the homes it had to offer. When Rebecca and I stepped into the show home we were immediately struck by the size and layout of the rooms, it was exactly what we were looking for as a family.*

*It was nice to see that Whitehorse Park wasn't your typical run-of-the-mill, clone development-it looked different, the homes had character. Also, when stepping inside the show home it was clear to see that they were a good solid build with a high quality finish, an example being the staircase.*

SUPERIOR HOMES... SUPERB LOCATIONS

*When we visited Whitehorse Park we just fell in love with it, we really liked the fact that the homes on phase 2 are set around a private courtyard and the way they have been built to look like traditional farm houses is superb. We both love interior design and really wanted somewhere that we could decorate from a blank canvas.*

*We couldn't praise Banner Homes more, particularly their sales advisor who was so attentive to us throughout our move, helping us every step of the way. The attention to detail and specification in our new home is superb. Whitehorse Park allows us the best of both worlds; we are not in the centre of Banbury but are close enough to be able to walk in if we want to.*

*When we viewed Whitehorse Park, we were immediately taken with a four bedroom townhouse. The shape, the size and the layout were perfect – quite simply it meant we didn't have to make any compromises. What's more it was being marketed at a price that we felt was right, something that is pretty uncommon in the property marketplace - we immediately knew this was a place we could call 'home'.*

*Being able to take advantage of the Part Exchange scheme meant that the process of house moving became a relatively painless and quick process. The sales advisor was a pleasure to deal with and throughout. In fact, some people say 'Moving house is one of the most stressful periods of your life' but thankfully this could not be further from the truth. The process was plain, simple and quick.*

*We really liked the style and design of the phase 2 properties, with the older style barn look but with all the benefits of a new home. In addition they are set around a courtyard giving a small community feel but still nice and private. We felt the best way for us to move was to use Banner Homes' Premier Part Exchange Scheme.*

*It has made the move for us so painless with no stress. We didn't have the time to show people around our house so this took away all the hassle and has saved us loads of time. I would recommend it to anyone.*
